Our monthly all-livestreamed 3rd Season, "Risk-Takers and Game-Changers," kicks off with David Hughes, the celebrated founder of the [PlantVillage Project](#).

2021 was a good year for David.

Not only was he named [Huck Chair in Global Food Security](#), he also made *Fast Company's* "[Most Creative People in Business](#)" list and was dubbed one of "[America's Greatest Disruptors](#)" by *Newsweek*. And now [USAID is granting](#)

[him up to \\$39 million](#) to co-lead a Feed the Future Innovation lab for Current & Emerging Threats to Crops.

David didn't win all these accolades by playing it safe or following all the rules. We're going to talk to him about that, maybe break a few rules of our own, and take live questions from you at the end.
