
Changing the Game in Stem Cell Engineering

A Livestream with Xiaojun (Lance) Lian

12:00—12:45 PM EST
Wednesday, September 28

Save the date—we're going live!

Bookmark huck.psu.edu/symbiotic now to join us for another live episode of The Symbiotic Podcast.

Associate Professor of Biomedical Engineering **Lance Lian** will join the Symbiotic podcast live on **Wednesday, September 28 at noon**. The latest subject of our "Risk-Takers and Game-Changers" series, Lian is on the forefront of stem cell engineering.

The field of stem cell research has progressed immensely since its high-profile politicization in the early 2000s, with researchers now able to harvest cells from uncontroversial sources and manipulate them with ever-increasing accuracy and efficiency. Lian will talk about his key role in

advancing our understanding and mastery of stem cells and the incredible medical applications they promise.

Don't miss this chance to hear from Lance and chat in live with your questions!
